## **NITROGEN FLOW METER**

*The Choice for Plumbing and HVAC Professionals*

The NFM-TT Nitrogen Flow Meter allows for a controlled flow of nitrogen gas through copper lines during brazing. Purging the line with nitrogen prevents oxidation and scale inside the tube which would otherwise cause contamination.

**OUTFLOW 0 to 75 SCFH**  
(Standard Cubic Feet per Hour) and  
**0 to 35 LPM**  
(Liters per Minute)

**1/4" F.F. INLET**  
(Hand Tight) **MAXIMUM INLET PRESSURE 50 PSI**

**OVER-PRESSURE SAFETY RELIEF VALVE**

**CONTROL VALVE**

**BRASS BODY CONSTRUCTION**

**1/4" M.F. OUTLET**

**IDEAL FOR USE WITH TURBOTORCH NITROGEN PURGE KIT**

**Model #: NFM-TT**  
**P/N: 0386-0849**
